

Camelot

A Planned Neighborhood

There's still a sense amidst this rugged, rolling land of the tranquility from an earlier time - a time when the pace of life was much slower. Camelot is destined to become a neighborhood reminiscent of this bygone era, with tree-lined streets, sidewalks, and expansive front porches. Strict architectural control requires the garages to be placed in locations that minimize the impact of automobiles and emphasize pedestrian activity. Many of the building sites offer breath-taking views of Glen Rose and Somervell County.
